THREE-TWO PLAN

If you have a good academic record, you may be eligible to become part of MCC's **Three-Two Plan**. Under this accelerated program, you may enter MCC after three years of high school (grades 9-11) and obtain your Associates Degree after two years at MCC. Several high schools have worked out special programs allowing students to take their senior year requirements at MCC and to still graduate with their regular high school class. At the same time, these students complete their first year of college. Nearly one-fifth of the nation's colleges and universities have adopted similar programs, so don't overlook this exciting opportunity!
