## Challenging Academics

Rochester College provides a vigorous liberal arts education within a Christian community. Rochester College accomplishes that by providing every student a personalized environment that fosters academic excellence. You will find your classes challenging, led by highly qualified faculty. Strong academic majors and the personalized attention from your faculty will allow you to accomplish your educational and personal goals.

The liberal arts emphasis will prepare you for living in the fast-paced global society of the 21st century and provide a broad educational base for learning. You will take a 51-hour core curriculum in addition to the courses required for your major. This core curriculum provides the broad perspective necessary in a liberal arts education.

The Rochester College faculty believes that education is more than a collection of courses leading to a specific major. Education at Rochester College emphasizes balance, a balance of the spiritual, emotional, academic, physical, and social aspects of life. The faculty works to instill in you the principles of virtue, social responsibility, and service, all surrounded with a commitment to a Christian worldview.

Dr. Westerfield welcomes Rachel Gulish at the charter meeting of the Alpha Chi National Honor Society.

# Spiritual Focus

Combining academic excellence with Christian ideals, Rochester College generates a unique atmosphere that is enthusiastically Christian. Built upon the conviction that a person is incomplete without spiritual growth, the college works to develop greater character and Christian commitment in all its students, faculty and staff.

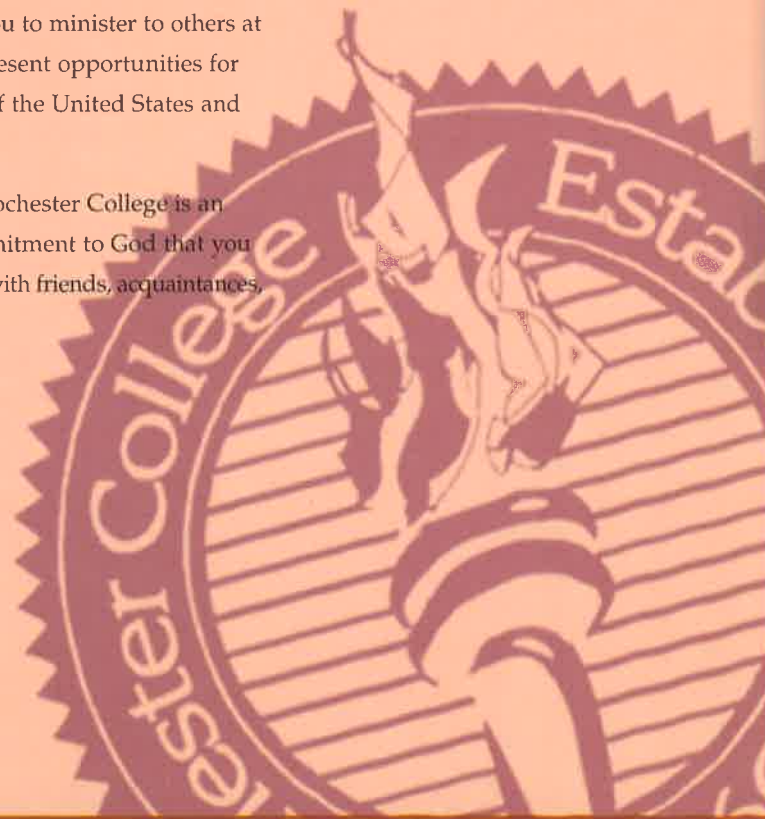

Rochester College strives to provide an atmosphere conducive to the development of your strong personal faith in God. Required daily Assembly, student led devotionals, and courses in Bible and religion enhance your opportunities to grow spiritually and reinforce your knowledge of God and His word.

Emphasis is focused on action as you are encouraged to live out your faith through serving. Various service projects will allow you to minister to others at home while mission trips present opportunities for you to serve in other parts of the United States and around the world.

The family atmosphere of Rochester College is an outgrowth of the deep commitment to God that you carry into your relationships with friends, acquaintances, co-workers, and others.

Mark Johnson getting "five" from one of the students he worked with in his recent mission trip to Ghana, South Africa.

## Great Location

Rochester College is ideally located on a beautiful, quiet campus in the dynamic North. Its home, Rochester Hills, is a thriving community in the metropolitan Detroit area, where you can enjoy the best of suburban life with unlimited opportunities just minutes away.

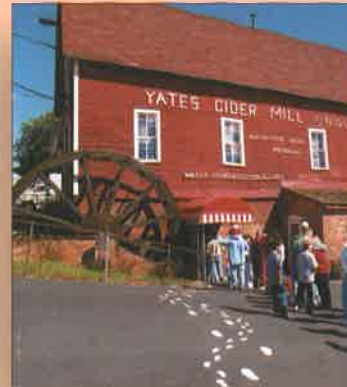

The Rochester area is nationally known for its active economy and small-town charm. These benefits will contribute to your intellectual, social, and cultural growth while you are enrolled at Rochester College.

Numerous opportunities exist for you to find a part-time job or internship while you work to complete your degree at Rochester College. You will also find career placement to be a plus as you move into the job market after graduation.

Within minutes, you can shop at numerous malls, see the latest movie, ski a snowy slope, or visit the Canadian riverfront. You can cheer for the Lions, Pistons, Red Wings, or Tigers, or take in a live concert of your favorite performer. Greenfield Village, Greektown, professional theatre, the Detroit Zoo, and world-class museums are just outside your door.

Beth Stewart and Stephanie Britten share a relaxing moment on the front lawn of our campus.

# Campus Community

An outstanding attribute of Rochester College is the tremendous opportunity for community. College memories, friends and life lessons are most often made outside the classroom and are a big part of building community. Limited only by your imagination and initiative, Rochester College offers activities and programs that urge everyone to get involved. Our experience has proven that lifelong friends, talents, abilities, and maturity have all been found as a result of the Rochester College community. Come discover yours.

Jon Woodall helps Nadine Taylor with final preparations for her role as Mighty Mouse in our "Celebration" production.

Community means people cooperating and connecting together in a way that benefits all its members. You are encouraged to contribute by utilizing and discovering your talents through our music ensembles, drama groups, sport teams, intramurals, student government, campus service organizations, social clubs, professional clubs, college sponsored mission trips, leadership programs and social life in general. Any one of these Rochester College associations can meet your needs helping you to become who you desire to be. These associations are opportunities that work together in creating the Rochester College community and will help insure that your years here are monumental! Just ask our alumni.
