

## DALNET Details Newsletter

The e-newsletter of the Detroit Area Library Network

JUNE 2012

Welcome to Jing Jing Wu

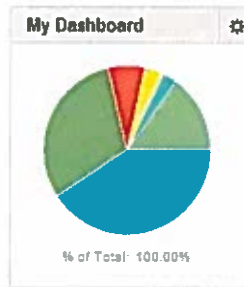

京晶吴

Jing Jing Wu has joined the DALNET office as a WSU School of Library and Information Science practicum student. Jing Jing holds management, library science, and engineering degrees from China and is completing her MLIS at WSU this summer. She is already hard at work on special projects and has made several enhancements in member services.

### DALNET Board Training Retreat This Month

The DALNET Board will have a training retreat for their meeting this month. The retreat will be held at WSU on Monday, June 18, 2012, from Noon-4:30 pm. Please note the extended time for the meeting. Lunch will be provided from Noon until 1 pm. Hartzell-Mika Consulting, LLC has been contracted to provide the Board training for the afternoon. The consultants will help define the roles of the Board and the Executive Director of DALNET. All Board members should make this meeting a priority on their schedules and are asked to complete the pre-meeting survey that was sent to the DALNET Board mailing list by June 6.

### Google Analytics Upgrade

All DALNET catalogs in the shared system are now using the new Google Analytics tracking code. Updates to Google Analytics were required for continued use of the free service. The upgraded system has new reporting features and custom reports have been scheduled to go out to each DALNET project manager on the first of each month. If your institution would like additional individuals to receive the reports or if you have Google accounts that you would like assigned to your institution's DALNET Analytics profile, please send the information to [dalnet@wayne.edu](mailto:dalnet@wayne.edu).

### Did You Know?

Library's can select specific [DALNET eLibrary](#) collections as limits in their catalog. Take a look at the [DALNET Union Catalog](#) for ideas and let us know if you would like any collection limits added to your catalog.
