8029 University of Michigan Unspecified Campus 2303 or 2043?? Oakland Community College

This information is found on I:\Research Data\Graduate Follow-up Survey Data Files and then the respective year files Calculate using variable relating to school attended (schatt)
Use school code book to translate school
Be aware there are several different codes for the various $U$ of $M$ campuses. As of 2001-2002, other colleges were using only 1 code for all campuses.

- OCC is included in these numbers, and sometimes makes the Top 10 list

## School Code School Name

1972 Central Michigan University

1981 Davenport College of Business
1990 Eastern Michigan University
1996 Mott Community College

Information for this screen is found in the Graduate Follow-up Survey SPSS files for corresponding years. Use variables salary and jobrela Variable jobrela -
First, combine "Somewhat related" and "Highly Related" responses, calculate average salary information on these.
Second, combine "Not at all related", calculate average salary for these.
Values: $3=$ highly related; $2=$ somewhat related; and $0=$ not at all related (however in 2001-02 data entry gave value of 1 to not at all related)
