Subject: Fall 1995 Enrollment Trends Report

Date: October 9, 1995

As of the official count date for the Fall 1995 term, enrollment has declined 3.6% from Fall 1994 totals. Furthermore, enrollment has decreased 10% over the last five years and 3% over the past ten years. Detailed information concerning these and other trends and illustrated in the attached Fall 1995 Enrollment Trends Report. A brief summary of this report includes:

- The average age of an OCC student is 28 years old. Data continues to show that, on average, female students are approximately three years older than male students.
- Highland Lakes and Royal Oak/Southfield have the largest proportion of female students.
- The percentage of minority students has increased from 14% in Fall 1991 to 19% in Fall 1995 (college-wide).
- In Fall 1995, 80% of students are enrolled part-time. The ratio between full-time and part-time students has remained steady over the past five years. Furthermore, nearly two-thirds (60%) of part-time students are female.
- When comparing Fall, Winter, Spring and Summer enrollments, the proportion of part-time female and full-time male enrollment remains consistent. Part-time male enrollment declines in the Spring term.
- The average number of seats per section and student credit hours per section, is highest in the Fall term than in all other terms.
