The discussion list, named *DALNET*, will use the listserv software to post messages and questions back and forth among the subscribers. More complete listserv instructions are provided automatically to all subscribers. The list is moderated by Systems Office librarians.

You and your staff are now invited to subscribe to and participate in the list discussions.

Would you please post the enclosed instruction sheet and forward additional copies to any/all interested and appropriate staff?

An Electronic Mail Discussion List

The WSU/DALNET Systems Office announces an electronic mail discussion list as a means of improving communication among the DALNET libraries. DALNET is intended to serve two purposes: 1) to be an effective communication medium for the exchange of information between the DALNET Systems Office and the staff at DALNET libraries; and 2) to provide a forum for wide-ranging discussion of practical issues pertaining to the effective use of the NOTIS online systems among DALNET libraries.
