

2013-14 Report of the Ad Hoc Committee on Marks

After its creation in the Fall of 2013, the Committee has:

- Led a series of discussions at Campus- and College-Senates to discuss the current uses of the WP and WF marks;
- Researched the use of WP and WF at transfer institutions;
- Developed and modified a proposal to replace the WP and WF marks with the WS mark, also requiring faculty to submit last dates of attendance or participation on all F marks;
- Led discussions of this proposal at Campus- and College-Senates and online;
- Conducted an online balloting of the faculty on the proposal, which was passed;
- Conducted a survey of the current uses of the I mark;
- Shared the results of the I mark survey at Campus Senate meetings.

The next step, continued discussion of the results of the I mark survey, should be taken up by the Senate in Fall 2014.

With the review of the I mark incomplete, the committee recommends its ad-hoc status be extended for the 2014-15 academic year, for the sole purpose of creating a well-researched recommendation on the status and changes to the I mark.

Respectfully Submitted,

Patrick O'Connor, Chair

11 June 2014
