

DALNET/Horizon StafPAC Displays Task Force
Meeting Minutes
July 8, 1998

The DALNET/Horizon StafPAC Displays Task Force met July 8, 1998; 10:00-noon in the UDM McNichols Library Conference Room.

Present: D. Roe (Chair), M.J. Durivage, A. Evans, P. Hammer, A. Lim, J. Pearson.

The minutes of the June 11, 1998 meeting were approved with corrections noted.

The Roster was corrected to include fax numbers.

A draft of the Task Force charge was discussed and revised. It will be submitted to L. Bugg for approval.

Horizon questions raised at the June 22nd meeting were reviewed. Discussion improved Task Force members understanding of the structure of Horizon, the union catalog, staff and public indexes, and their relationship to the PACs.

It was noted that the "Implementation Manual" and the "System Administrator Guide" will be only superficially helpful in designing the StafPAC displays. The StafPAC guides available at the Horizon website offer little guidance in establishing procedures for designing StafPAC displays. The process for completing the charge will involve discussion, trial and error, reviewing UDM profile decisions, manipulating the UDM test database, consulting with Ameritech, UDM and WSU resource people.

The next meeting is scheduled for July 22, 1998; 9:30-noon; UDM McNichols Library Conference Room. Agenda will include previewing the UDM Horizon Test Database.

Minutes submitted by D. Roe.
