1999 HIGH SCHOOL PENETRATION REPORT

Prepared by:

*The Office of Institutional Research
Oakland Community College
December 1999*

Oakland Community College 1999 High School Penetration Report Major Findings

Each year the Office of Institutional Research prepares the High School Penetration report which examines trends in high school graduation levels in Oakland County and the rate at which recent high school graduates enroll at OCC for the fall term.

This report depicts the five and ten year trends in graduation levels, trends in number of graduates entering the college, and the associated penetration rate.

Highlights from this year's report include:

- ✓ Graduation levels from public high schools in Oakland County have increased for the fifth consecutive year. In 1999, the number of graduates increased by 12% over 1998 levels.
- ✓ Graduation levels from private high schools also increased. In 1999 a 7.3% increase occurred over 1998 levels. However, graduation rates have not increased as consistently over the past five years, as with the public high schools.
- ✓ In fall of 1998 a total of 1,638 recent high school graduates entered OCC, while in fall of 1999 a total of 1,390 recent high school graduates entered OCC. The decline in the number of recent Oakland County high school graduates entering is 248.
- ✓ OCC's penetration rate for public schools in Oakland County is 11.5%, down from the 1998 public high school penetration rate of 15.3%. The combined penetration rate for public and private schools is 10.4%, down from the 1998 combined penetration rate of 13.6%.
- ✓ Among public high schools, in 1999 the penetration rate is greater than 20% for only six Oakland County schools, three public and three private.
- ✓ The penetration rate was lower than 5% for ten public schools and 25 private schools.
- ✓ The number of high school graduates entering OCC from the Highland Lakes Recruiting Region has been consistently the largest over the past ten years even while the total number of graduates from that region has been the lowest or second lowest.

Subject: 2000 High School Penetration Report

Ruth and Dave,

As I explained to Dave, the full report is not complete. However, the data collection you need is. I am attaching a spreadsheet including # of graduates, and number and percent that entered OCC after graduation, for each high school. Please note two factors regarding the data collection this year. 1.) We have always collected the number of Alternative Education Program graduates (if these graduates are not included in the existing number of high school graduates). Previously, if we had numbers for a district that the district would not allocate to the individual schools, we lumped the alternative ed grads in with a pre-selected high school. This year we allocated the alternative program grads based on the percentage of total traditional grads. The districts affected are Farmington, Huron Valley, Pontiac, Royal Oak, Troy, Walled Lake, and Waterford. 2.) As Dave may recall, there were some data entry errors last year resulting in an incorrectly low number of students entering OCC from some high schools, most notably the Farmington Schools. The increase in number of students entering OCC for some schools may be artificially high due to the data entry errors. Hope this is helpful. Let me know if you have any questions.

o not delete. The macro Alph:

Executive Summary (? sym)

- In 2000, Clarkston highest in Oakland County in the number of graduates (533), and the largest number of graduates entering Oakland Community College (89). However, it is interesting to note that the largest percentage of graduates from one school to enter OCC was from Lamphere (30%).
- Looking over the last five years, Walled Lake Western enjoyed the greatest increase in graduates (71%), followed closely by Waterford Kettering (64%), and South Lyon (52%). In contrast, over these five years, Pontiac Northern suffered the greatest decrease in graduation rates at nearly 20% (-19.8%), followed by Pontiac Central (-15%), and Kimball (-13%).
- In terms of entering graduates into OCC, Holly High School shows the greatest increase of students in comparison to 1995 at 100%. Clawson (35%) and Milford (35%) ran a distant second and third, but were among several schools registering an increase in enrollment at OCC.
- Conversely, several schools showed an alarming decrease in enrollment at OCC. In 1995, Farmington had 46 high school graduates enter OCC. This number drops to 6 students in 1999, representing an 87% decrease. North Farmington (-81%) and Pontiac Central (-75%) also showed marked decreases in enrollment into OCC.
- Looking at ten years past, Harrison shows the greatest increase of graduates from 171 in 1991 to 302 in 2000 (77% increase). Walled Lake Western (46%) and Rochester (45%) also show an increase in graduation. Again, in contrast, Pontiac Northern shows a decrease of graduates at -38%, followed closely by Pontiac Central (-36%) and Clawson (-24%). It is of note to recognize the steady decline of graduation rates in the Pontiac area.
- South Lyon shows the largest increase of students entering OCC in 2000 relative to 1991 graduates (92%), followed by Ferndale (90%) and Holly (73%). Conversely, Pontiac Central shows a 52% decrease in enrollment into OCC, followed by Pontiac Northern (-50%) and Madison (-43%).
- Overall trends show an increase in the number of graduates, from 11,797 graduates in 1991 to 10,975 in 1995 to 13,705 in 2000. [Charts will clearly indicate a steady rise since 1994.] *awk.*
- Enrollment trends over the last ten years would indicate a slight, but steady decline in enrollment into OCC, with a low of 1390 in 1998. However, in 2000, OCC enjoyed its largest number of graduates enrolling at OCC (1819 students) since 1991's ten-year high of 1918 students.
- Looking at regions, Auburn Hills attracts the largest percentage of incoming high school graduates (30%), followed by the Orchard Ridge region (26%). Highland lakes brings in 24% of the total number of high school graduates for 2000, while Royal Oak and Southfield constitute 20% of the graduates of the class of 2000.
- Looking at these recruiting regions over time, it must be noted that the Royal Oak/ Southfield region has not shown the same rate of growth as the other three regions in terms of high school students graduating. It is also interesting to note that the Auburn Hills region is enjoying the largest number of graduating high school students, due in part the fact that both Pontiac Northern and Pontiac Central have shown tremendous drops in the number of students graduating.
- In terms of these recruiting regions, it should be noted that, while there seems to be a rather steady rate of graduating students enrolling at OCC, the Orchard Ridge region shows the lowest number of students choosing OCC. The reasons are not clear, but the results are consistent.

I think I remember something about this being an error - Ask Eileen

- a little confusing
