Date: July 3, 2003

Attached you will find the Summer 2003, First Day of Session, Official Enrollment Report. This document contains data related to: 1) the number of student credit hours; 2) total student headcount; and 3) the number of credits per student, as well as projections college-wide and by campus.

This report can be summarized with the following main points:

- The number of college-wide student credit hours has increased by 14.6% or approximately 2,800 credits since the First Day of Session, Summer Two 2002. This represents the peak number of credit hours since 1999.
- College-wide, student headcount has decreased by 2.7% when compared to the First Day of Session, Summer Two 2002.
- The college-wide credit hours per student have increased by almost 18% from last year.

Overall, there was an increase in student credit hours and a decrease in student headcount from the past year. As a result, college-wide credit hours per student show an increase as fewer students are taking more credits.
