

**PRESENTATION DATA
(LARRY KODOSKY)**

Transfer Data:

- 46% of Outcomes Cohort students report they are intending to transfer.
- 45% of Entering Students report transfer is their primary reason in attending OCC. (Data book, page 13, Table 1.5 (ASSET EPF Data))
- 63% of continuing students report that availability of transfer credit is a major reason for continuing at OCC.
- Data from our Graduate Exit survey shows that 75% of graduates from Auburn Hills campus who are transferring to a four-year college would choose OCC if they were starting over. (*This is good rating, but of course, is limited to just graduates.*)
- Data from the Graduate Follow-up survey 1992-3 indicates that 22% of those responding have transferred to another college. (*Limitation of this data is that it only reflects those who responded to the survey and there is an inbuilt tendency for the more "successful" to respond.*)

We do not know the actual number of transfers, because we are dependent on 4-year schools sending data. This process is only just beginning. Counseling staff have some data; they have individual liason roles with local universities which provides them with some feedback. You might find it useful to contact the Auburn Hills people; I talked only to those at Orchard Ridge.

Satisfaction Data:

- 95% of students contacted in the Continuing Student Survey in both 1994 and 1995 report that they think "they are getting their money's worth at OCC."
- 98% of all graduates of Auburn Hills responding to the graduate exit survey indicated that they would choose OCC again.
