

Wayne State University

Memorandum

To: Daniel Graf, Director, ORSPS

From: James F. Williams, II, Associate Director of Libraries Ext. 7-4021

Subject: Request to Establish Account for Detroit Area Library Network (DALNET)

Date: May 15, 1984

The Libraries are in the process of planning for the automation of the majority of library operations and our plans include the creation of a local network with at least eight metro Detroit institutional participants. The Detroit Area Library Network (DALNET) will be hosted by WSU and its constituents have already been meeting with us on an active planning basis. Our future activities will involve expenditures whose costs should be borne by the network and not solely by WSU. I therefore request the establishment of a 200 account to facilitate fiscal control of DALNET's activities.

Thank you for your attention in this regard.
